

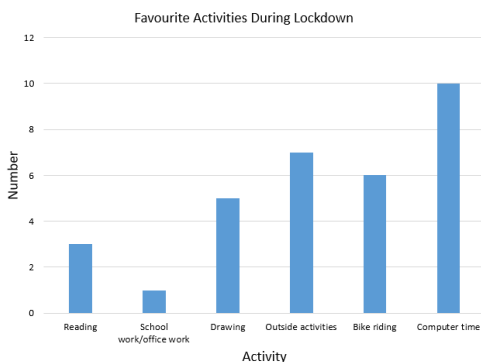

## Graph Investigation

1. Choose a question: What are your friends and family favourite: food to eat, place to visit, hobby, style of music, colour, animal, drink...
2. Organise what data you want to collect
3. Draw a table to collect the data

Activity	Tally	Total
Reading		3
School work/office work		1
Drawing		5
Outside activities		7
Bike riding		6
Computer time		10

4. Ask your friends and family and collect the data
5. Draw a graph to represent the data– REMEMBER to include the titles for the axis.

If you have excel you could learn how to create graphs there.

1. Type the info in
2. Highlight the cells
3. Insert
