

Estimation

Task 1- Use different objects in your home to practice estimation. Remember to count them after to see how close you were.

- Collect a handful of lego and estimate how many bricks you are holding.
- If you have a biscuit jar have a look and estimate how many biscuits are in there.
- Estimate how many trees, bushes or flowers are in your garden

Task 2- Look at the sweet jars and estimate how many sweets are in each one. Then count them and write the actual amount.

Estimate _____

Answer _____
