

## Problem Solving

- 1) Zig and Zag love eating lettuce. They have 8 pieces of lettuce and want to have half of that each for lunch. How much lettuce do they eat?

- 2) There are 20 children. Half of them are in Butterfly class. How many children are in Butterfly class?

- 3) A baker makes 16 muffins. He sells half of them. How many muffins does he have left?

- 4) Jack has 8 sweets and Emma has half of that amount. How many sweets does Emma have?
