

Lesson 1

Task 1

- Find three objects that are taller than you
- Find three objects that are shorter than you

Task 2

- Order the objects from tallest to shortest
- Find out where you would go in the order from tallest to shortest.

Challenge

See if you can order the people in your household from the tallest to the shortest.

Where did you come?

Lesson 2

Independent Task

Task

Use your hands to measure some of your toys and furniture. For example:

How many hands would it take to measure the length of your fridge?

Hint: you may need help from an adult to reach the top of the fridge.

How can you be as accurate as possible?

Measuring the length of objects in my house

Name of Object	Number of hands
E.g. My bed	14 hands

Lesson 3

Task

Measure using non-standard units like these.

Have a go at home with some of your toys and furniture. For example:

A plant pot

Measuring objects using non-standard units

Name of Object	Estimate	Results
E.g. book	5 lego bricks	7 lego bricks

Hint: prediction is your estimate.

Lesson 4

Independent Task

Task

Have a go at finding things at home that are bigger or smaller than 1 metre.

Make sure you explain how you know...

A bunk bed is taller than 1 metre.

Finding objects taller and shorter than 1 metre

Taller than 1 metre	Shorter than 1 metre
E.g. My bunk bed	Our plant

Lesson 5

Independent Task

Task 1

Here is a table of numbers. You need to work out what half of them is, the first one is done for you.

Make sure that you use some manipulatives so you can prove it.

Whole	Half
14	7
16	
8	
20	
24	

Independent Task

Task 2

Here is a table of numbers. You need to work out what double is, the first one is done for you.

Make sure you use manipulatives so that you can prove it.

Half	Double
8	16
20	
14	
18	
21
